Mineral prospecting and exploration are one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. Furthermore, Section 21 to 24 of the EIA Regulations requires that public consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested and affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication. Please find the attached Background Information Documents (BIDs) for the proposed exploration activities.

Please assist our office in circulating the attached BIDs .

Please note the details of the public consultation meeting will be communicated in due course.

Kind regards,

Vistolinc

Subject: Public consultation meeting invitation for the Environmental Impact Assessment on the proposed Exclusive Prospecting Licenses (EPL) No. 9996

Dear Esteemed Interested & Affected Party,

Codebreak Investments (Pty) Ltd (The Proponent) proposes to undertake prospecting and exploration activities on Exclusive Prospecting License (EPL) No. 9996 located 13km north-east of Otavi, Otjozondjupa Region.

Mineral prospecting and exploration is one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. The Proponent, therefore, appointed Excel Dynamic Solutions (Pty) Ltd, an independent Environmental Consultants firm to conduct the required Environmental Scoping Assessment (ESA) process and apply for the ECC.

Furthermore, Sections 21 to 24 of the EIA Regulations require that Public Consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested & Affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication.

Please find the attached Background Information Document (BID) the proposed prospecting and exploration activities and the site notice as a public consultation invitation.

The EPL cover farms: Rentes No. 783 and Malfoi No. 784.

We would greatly appreciate if the landowners could kindly provide us with their names, farm names, and contact details so that we can register them as Interested and Affected Parties (I&APs).
