Mineral prospecting and exploration are one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. Furthermore, Section 21 to 24 of the EIA Regulations requires that public consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested and affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication. Please find the attached Background Information Documents (BIDs) for the proposed exploration activities.

Please assist our office in circulating the attached BIDs .

Please note the details of the public consultation meeting will be communicated in due course.

Kind regards,

**Attachments:** BID \_EPL 9996.pdf

Dear Mr Rudolf Coetzee,

Codebreak Investments (Pty) Ltd (The Proponent) proposes to undertake prospecting and exploration activities on Exclusive Prospecting License (EPL) No. 9996 located 13km north-east of Otavi, Otjozondjupa Region.

Mineral prospecting and exploration is one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. The Proponent, therefore, appointed Excel Dynamic Solutions (Pty) Ltd, an independent Environmental Consultants firm to conduct the required Environmental Scoping Assessment (ESA) process and apply for the ECC.

Furthermore, Sections 21 to 24 of the EIA Regulations requires that Public Consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested & Affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation.

Following the Environmental Assessments for EPLs No. 9996, it has come to our attention that Farm Malfoi No. 784, which is covered by the proposed project, is owned by Ohorongo Cement Namibia. We understand that this makes Ohorongo Cement Namibia an Interested and Affected Party (I&AP) in the proposed exploration activities. As an Interested and Affected Party (I&AP), Ohorongo Cement Namibia would have the right to participate in the public consultation process and provide input on potential impacts of the proposed exploration activities.

We kindly request that Ohorongo Cement Namibia suggest a date and time for a brief meeting at their earliest convenience. We would be happy to visit your office for this meeting and discuss any concerns or questions regarding the proposed project.

Please find the attached **Background Information Document (BID)** the proposed prospecting and exploration activities.

We appreciate your attention to this matter and look forward to your response.

Kind regards,

**Subject:** FW: Public consultation meeting invitation for the Environmental Impact Assessment on the proposed Exclusive Prospecting Licenses (EPL) No. 9996

We are planning public consultation meetings for multiple EPLs, and for **EPL 9996**, we had planned to meet with you on the 10th of May 2025, as the EPL only covers 2 farms and we wanted to discuss the consultation process with you in person given the relatively small number of farms involved in this EPL.

However, as you mentioned in our phone conversation that you will be in Omaruru on the 10th, we would like to discuss alternative dates for the meeting.

However since we will be in the area on the 10th of May for the other consultations, we would be grateful if we could drop off the BID documents at your farm on that date, even if a face-to-face meeting is not possible at that time and give you the opportunity to review the documents prior to the meeting.
