Hi

Please would you register us as an I&AP for the project below? We would also appreciate the BID, and any other relevant documents, when available.

Thanks & regards

ENVIRONMENTAL ASSESSMENT FOR AN APPLICATION FOR ENVIRONMENTAL CLEARANCE FOR THE PROPOSED 20 MW PV SOLAR PARK (40 HA) AND THE ASSOCIATED 30 KM LONG 66 KV POWERLINE OSHIKOTO REGION

 - Body:**

Dear Mike and Ann,

Thanks for your email and registration as interested and affected parties for the proposed development.

I should however, notify you that there has been minor adjustments to the project in terms of location and thus the exclusion of the powerline. The new site for the **Solar Park** component now will be in Tsumeb with the Dundee Precious Metals premise and the generated power will be feed directly into the production / operations of Dundee.

Dear Lawrence

Thank you for your prompt response. We always have a concern about potential negative interactions between avifauna and energy infrastructure, particularly power lines, so it's good to hear that this risk aspect (in the form of the power line) has been reduced.

Good luck with the project!

Best regards

Ann & Mike

Great!

Thanks for the feedback!

Many thanks.
