Church Donates N\$1.7 Million to Farmers in Four Regions

Eagle FM

Annakleta Haikera

The Evangelical Lutheran Church in America (ELCA), through its Department of Missions Diakonia has donated N\$1.7 million to assist farmers in the Kavango East, Ohangwena, Oshikoto, and Oshana regions, who have been severely impacted by prolonged drought and recent flooding.

Although the funds were donated in 2023, implementation began in 2024/2025.

The donation is being used to empower and train local farmers in climate resilience, sustainable agricultural practices, and disaster preparedness.

This support is part of ELCA's broader initiative to strengthen community-based responses to climate change and ensure food security in vulnerable rural areas.

In collaboration with the Ministry of Social Services and the Ministry of Agriculture, ELCA has launched training for 30 individuals in the Rundu Rural Constituency.

These trainees are being equipped with vital skills in flood management, first aid, and community-based search and rescue.

On Thursday, Martin Alfred, the Rundu Rural Constituency Field Officer for the ELCA Diakonia Drought Resilience Project, explained that the initiative includes a one-day intensive training workshop.

The workshop brought together traditional authorities, church leaders, and members of the Rundu Rural East Disaster Management Committee.

"These are key community influencers," Alfred said. "When they speak, people listen. That's why it is important to equip them with the right knowledge and tools to support farmers, raise awareness, and promote long-term solutions."

The training focused on practical skills such as drought-tolerant crop production, water harvesting techniques, and early warning systems. It also aims to enhance collaboration between local institutions and farmers for a more coordinated disaster response. According to Alfred, the project began in January last year, initially focusing on flood-related challenges.

This year, the emphasis is on drought. He added that the project also assists affected farmers by purchasing seeds and covering ploughing costs, as many cannot afford to hire tractors.

With additional support from the Ministry of Agriculture, technical teams are visiting communities to raise awareness about food security and encourage farmers to make the most of their harvests.

Traditional authorities who attended the training expressed their appreciation, noting that both drought and floods have devastated crops, left many households food insecure, and disrupted livelihoods.

Theresa Mukuve, the headwoman of Khehemu, shared, "This training gives us hope. We are learning new ways to survive and adapt. With the support we're receiving, we can start again."

She emphasised that many farmers mistakenly believe that ploughing is only

possible when it rains. "That's not the case," she said. "We can plough before the rain, and once it comes, we can proceed with the rest." Mukuve also pledged to share the knowledge she gained with her community and ensure it is put into practice.

As climate change continues to intensify, organisations like ELCIN are playing a crucial role in helping communities adapt and build resilience through faith-based, community-driven approaches.

CALL FOR REGISTRATION AS INTERESTED & AFFECTED PARTIES

ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED PROSPECTING IN RESPECT TO DIMENSION STONE, BASE AND RARE METALS, INDUSTRIAL MINERAL AND PRECIOUS METAL ON EPL 10220, KUNENE REGION

1. PROJECT SITE AND DESCRIPTION

Mr. Gottfried Mootu (the Proponent), intends to apply to obtain an Environmental Clearance Certificate for their proposed prospecting activities in respect to Dimension Stone, Base and Rare Metals, Industrial Mineral and Precious Metals on an approximate area of 13966.39 Ha in the Kunene Region. The key component of the proposed activity entails geological mapping and survey and manual sample collection for laboratory analysis, and small-scale mining operation. Access to the sampling or survey sites will be by existing tracks and on foot where vehicle access is limited.

2. PUBLIC PARTICIPATION PROCESS

Enviro-Leap Consulting invites all Interested and Affected Party (I & AP) to register and receive Environmental Assessment (EIA, Scoping and EMP) documents relating to the proposed project for their comments and input. Interested and Affected Parties are herewith request to register by writing to us at the address below no later than 13 June 2025.

3. COMMENTS AND QUERIES

PUBLIC NOTICE

ENVIRONMENTAL CLEARANCE NOTICE Public Participation Notice in terms of Regulation No. 29, Section 21 under the Environmental Management Act (Act No. 7 of 2007)

Project Activity: Design, Construction, and Operation of a Waste Water Treatment Plant for the New Secondary School at Epemba, Ohangwena Region, Namibia
Report Title: Environmental & Social Impact Assessment (ESIA) for the Design, Construction, and Operation of the Waste Water Treatment Plant and Associated Discharge System for the New Secondary School at Epemba, Ohangwena Region, Namibia
Project Location: The new Secondary School at Epemba is located at the intersection of national roads D3602 and D3604, east of D3602, in the Ohangwena Region, Namibia. Coordinates: 17°47'00"S, 16°27'00"E
Proponent: Ministry of Education, Innovation, Youth, Sports, Arts & Culture Namibia, E&P: Erongo Consulting Group (Pty) Ltd
Reviewer: Ministry of Environment & Tourism (MET) - Namibia

The Ministry of Education, Innovation, Youth, Sports, Arts & Culture - Namibia plans to build a new secondary school in Epemba, Ohangwena Region, to accommodate up to 400 learners, including a hostel and teacher housing. Located in a rural area lacking basic services, the project requires a new waste water treatment plant to discharge treated water into an adjacent "oshana". The site, approximately 20 hectares, features deep, soft sand, dense vegetation with shrubs and trees, and slopes southward toward the Oshana. An Environmental and Social Impact Assessment is needed to comply with the Environmental Management Act of 2007 and its Regulations (2012).

We invite Interested and Affected Parties (I&APs) to join the public consultation process. Comments are welcome until 6 June 2025, 1700 hours. A public meeting will be held based on stakeholder interest, subject to registered I&APs.

NAB Commits N\$250 Million for Crop Value Chain Development

 Nghinomenwa-valli Erastus

The Namibia Agronomic Board (NAB) has committed to invest approximately N\$250 million over the next five years, intended to develop the country's crop value chain.

The project will also include crops of citrus varieties.

This was announced by NAB Chief Executive Officer Fidelis Mwazi during a strategic engagement with industry stakeholders, aimed at unlocking the potential of Namibia's citrus industry and strengthening value chain development.

Mwazi also revealed that NAB has refined its mission to better align with its strategic focus

for the next five years.

According to him, the board aims to advance the agronomy and horticulture sectors through effective legislation and targeted facilitation.

He added that in order to enhance the value of the crop sector, NAB will be prioritising dedicated facilitation, cutting-edge research and development, while ensuring a dynamic regulatory framework that responds to the evolving needs of the industry.

He emphasised the citrus sector's potential to create jobs and diversify the country's export base.

"When we talk about the citrus industry, we are talking about potential, about jobs, about foreign exchange earnings, and most importantly, about transforming the sector to benefit our farmers and the national economy," he said.

Citrus is the third most consumed fruit in Namibia after apples and bananas, yet the country remains a net importer.

According to the NAB, 96% of the country's citrus consumption is met through imports, costing approximately N\$57.6 million annually.

Despite this, there is a growing level of domestic citrus production. Commercial cultivation takes place primarily in the Karst, Central, South, and Orange River production zones.

This year, an estimated 1,783 tons of citrus are expected to be harvested, with approximately 150,515 commercial citrus trees planted nationwide.

Of this produce, 70% is sold through formal markets, while 30% is distributed via informal channels, the Board said.

Oranges are the most commonly consumed and produced citrus fruit in Namibia, followed by soft citrus (naartjies).

Key export destinations include South Africa and Angola, generating over N\$23.9 million in earnings in 2024.

The country also imports citrus planting material worth over N\$136 million, placing it among the top 10 agricultural input costs. erastus@thevillager.com.na

 Mobile: +264 814112046
 Email: acaciaenviro1@gmail.com

PUBLIC NOTICE

Take notice that HARMONIC TOWN PLANNING CONSULTANTS CC, Town and Regional Planners, on behalf of the owner(s) of the respective erven, intend to apply to the City of Windhoek and the Urban and Regional Planning Board for the:

- Rezoning of Erf No. 242, Akwamany Street, Ereropark from "Residential" with a density of 1:900 to "Office" with a bulk of 0.4; and
 - Consent for Institutional Use (Place of Instruction) to Operate on Erf No. 242, Akwamany Street, Ereropark and Erf No. 243, Akwamany Street, Ereropark.
- Erf 242 and Erf 243 are located on Akwamany Street within Ereropark. Erf 242 and Erf 243 measure 11 346m² and 11 356m², respectively. Erf 242 is zoned "Residential" with a density of 1:900, while Erf 243 is zoned "Office" with a bulk of 0.4 as per the Windhoek Zoning Scheme.
- The client seeks to rezone Erf 242, Ereropark, to "Office" with a bulk of 0.4. Additionally, they wish to apply for consent to establish a medical training facility on Erf 242 and Erf 243, Ereropark. Erf 242 is strategically located near Medi-clinic and various healthcare practices, making it an ideal site for medical-related offices. The consent for an institutional facility on both Erfen 242 and 243 will enable the owner(s) to operate a medical training facility on the properties. The medical facility will specialise in training students to provide comprehensive healthcare for the elderly, equipping them with the necessary skills to work in Health Day Care Centres and Nurseries for the Aged.
- Sufficient regard for the development will be provided in accordance with the requirements of the Windhoek Zoning Scheme. Further, take notice that the plan of the Erf is for inspection on the Town Planning Notice Board at the City of Windhoek and at Harmonic Town Planning Offices, 768 Pasteur Street, Windhoek West.
- Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the City of Windhoek and with the Applicant in writing within 14 days of the last publication of this notice (last date for objections is Tuesday, 10 June 2025).

PUBLIC NOTICE

ENVIRONMENTAL CLEARANCE NOTICE
 Public Participation Notice in terms of Regulation No. 29, Section 21 under the Environmental Management Act (Act No. 7 of 2007)

Report Title: Seal Oil and Seal Product Processing Plant, Henties Bay, Namibia
 Project Location: Portion 105 of Henties Bay Townlands No. 133.
 Coordinates: -22.094968, 14.283121
 -22.094752, 14.296476; -22.093514, 14.28322
 & -22.100335, 14.292004
 Proponent: Virgo Biotechnology (Pty) Ltd
 EAP: Erongo Consulting Group (Pty) Ltd
 Reviewer: Ministry of Environment, Forestry & Tourism (MEFT)
 Local Authority: Henties Bay Municipality, Namibia

The EIA process will assess environmental and social impacts, including land disturbance, water resources, biodiversity, air quality, noise, and socio-economic factors associated with the construction and establishment of a Seal Oil and Seal Processing Plant on portion 105 of Henties Bay townlands No. 133, in extent of 25 Hectares. Mitigation measures will ensure sustainable exploration while protecting the environment and communities.

Interested and Affected Parties (I&APs) are invited to participate. Submit comments by 25 May 2025.

Contact Information:
 • Tel / WhatsApp: +264 (0) 81 578 66 76
 Email: erongoconsulting@gmail.com

- How to Participate:
- Register as an I&AP: To receive project updates and documents, including the Draft EIA/Scoping Report and Draft Environmental Management Plan (EMP), please contact Erongo Consulting Group using the details above.
 - Submit Comments: Written comments can be submitted via email or post to the addresses provided.
 - Public Meetings: Details of public meetings (if applicable) will be communicated to registered I&APs.

Note: All comments received during the commenting period will be reviewed and addressed in the final EIA report. Your participation is vital to ensuring that the project is conducted in an environmentally and socially responsible manner.

PUBLIC NOTICE

Please take note that Kamau Town Planning and Development Specialists and Environmental Consultants has been appointed by the owner of Erf 1527, Oshakati North (Extension No. 6), to apply to the Oshakati Town Council and the Urban and Regional Planning Board for the:

- REZONING OF ERF 1527, OSHAKATI NORTH (EXTENSION NO. 6), FROM "SINGLE RESIDENTIAL" WITH A DENSITY OF 1:300m² TO "GENERAL RESIDENTIAL" WITH A DENSITY 1:500m².

In accordance with the Oshakati Zoning Scheme and Part 2, Section 105 of the Urban and Regional Planning Act No. 5 of 2018, Kamau TPDS hereby provides public notification of the above application.

Erf 1527 is located along north of the main road of Enyeny, before the fourth four-way stop at Theopora Tsha Tshilongo Street. The property is currently zoned "Single Residential" with a density of 1:300m² and measures 1134 sqm in extent.

At present, the erf is vacant. It is with the intention of the owner of the erf to rezone the erf from "Single Residential" with a density of 1:300m² to "General Residential" with a density of 1:500m², in order to align the proposed activities on the erf to the zoning and by-laws of the Oshakati Town Council and the Urban and Regional Planning Board.

Please further take note that -

(a) The plan of the portion lies for inspection at the offices of the Oshakati Town Council, Town Planning Department;

(b) Any person having objections to the rezoning concerned or who wants to comment, may in writing lodge such objections and comments, together with the grounds, with the Chief Executive Officer of the Oshakati Town Council, and with the applicant within 14 days of the last publication of this notice, no later than 23 May 2025.
