Dear I. Katali,

I have browsed through the scoping report shared and would like to note the following observations:

- The Municipality of Walvis Bay is listed as a stakeholder that was consulted during the public participation process (page 18). Kindly indicate which department(s) were consulted, and please share proof of consultation with the Municipality.
- Please clarify who was present at the public meeting (page 19).
- The described surrounding land use appears to contradict the map presented on page 11 of the scoping report and is also not a true reflection of the current land use in the area. Kindly review and address this error.

Kind regards,  
Nangula

<b>Comment</b>	<b>Response</b>
I don't understand. We thought we were invited to sign up for job opportunities.	The purpose of this meeting is to present the proposed project and inform you as interested and affected about the project and obtain any comments/input you may have regarding the proposed project, which will be considered as part of the EIA process.
Thank you for sharing the information.	Noted.
Is this company part of King Charcoal?	No, this is different from King Charcoal and it is a different company.
One of the main reasons we attended this meeting is because we are jobless and we desperately need work. How can we get employment from this project and who do we need to talk to?	As part of the process, there is a document called the Environmental Management Plan which will be compiled. It is a document with various commitments that Nani Import and Export will be required to implement and adhere to. Part of that document is a commitment stating that, residents in Walvis Bay to form a significant part of the project hiring policy to give preference to Project Affected People (PAP) through recruitment and training.
You should bear in mind that some of us do not have access to technology and newspapers, as you say the advert was published but some people did not get hold of the newspapers.	Noted. We have gone as far as knocking on doors, most specifically at the informal settlements who are nearest to the proposed development.
We appreciate that you came to give this information to us and I hope the project developers will take our names and call us to bring in our CVs for work?	Noted. thank you for attending.
Is Nani a Namibian company or foreign?	It is a 100% fully owned-Namibian company.
