Namibia

Dear Sir/Madam

**RE: ENVIRONMENTAL IMPACT ASSESSMENT FOR MINERAL EXPLORATION ON EXCLUSIVE PROSPECTING LICENSE (EPL) NO. 10425, IN OTJOZONDJUPA REGION OTJIWARONGO DISTRICT.**

The above subject matter is hereby referred.

On the 5<sup>th</sup> of March 2026 a consultative meeting was held in the Otjozondjupa Regional Council boardroom. The meeting was attended by the Otjozondjupa Regional Council personnel, the environmental practitioner and the mining proponent Director. A background of the project and the objective of the project was given by the environmental practitioner, and the participants were given an opportunity to provide inputs and comments on the intended mining activities within the Region.

The intended mining activities will yield socio economic opportunities for the residents of the Otjozondjupa Region and Namibia at large seeing that the proponent is a fully Namibian owned company. There are Environmental issues that may arise that are of paramount importance and need to be dealt with in the Environmental Management Plan. Further consultations with the Farmers and other OMAs are as well critical to ensure adequate consultation.

The Otjozondjupa Regional Council does not have any objection to the proposed activities. Furthermore, this letter does not in any way hold the Otjozondjupa Regional Council accountable for any misleading information or adverse effects that will arise from the project execution hence the Otjozondjupa Regional Council is indemnified of any losses, expenses and risks that may result from this activity.

Do not hesitate to contact our office should you have any queries.

Sincerely,

  
Ms Welma Guriras  
Acting Chief Regional Officer

All official correspondence must be addressed to the Chief Regional Officer
