Namibia joins the global ride

• MITCHELIN KANGOOTUI

NAMIBIAN bikers participated in the Royal Enfield 'One Ride One Life' event for the first time on Sunday, joining thousands of riders from more than 50 countries worldwide.

Over 20 bikers left from Dante Street in Prosperita, Windhoek, and rode together to Okahandja on Sunday morning, before returning to the capital in the afternoon.

The event was organised by Namibia Motorcycles and led by Zandra Groenewald, who said it was a proud moment for the local biking community.

The 'One Ride One Life' event is held every year in September and celebrates the Royal Enfield brand, welcoming riders of all types of motorcycles.

Royal Enfield is one of the oldest motorcycle brands in the world. It began in Great Britain but is now made in India.

The Royal Enfield Himalayan is built for off-road riding and is well-suited for Namibia's tough terrain and long distances.

"It was incredible to ride as part of a worldwide movement. The spirit among riders was amazing, and the open road to Okahandja gave us the perfect stage," Groenewald said.

According to the bikers, the journey to Okahandja took much longer than usual. Since many of the bikes were built for off-road and some carried two people, they could not go very fast. What normally takes 20 to 30 minutes took them almost two hours.

The strong winds along the way also made the ride slower.

Despite the challenges, the riders said they enjoyed the trip and requested for another session to be organised soon.

The convoy drew attention along the route as engines roared through the open road. For many, the ride was not only about the bikes but also about bringing bikers together and building a stronger community.

Okahandja was chosen because of its distance from Windhoek. Riders stopped

for lunch in town before heading back to Windhoek.

The event also highlighted the growing number of women bikers in Namibia. Groenewald spoke about riders such as Dillian Skitam, who she calls an "unofficial Royal Enfield ambassador," and Elaine Frager from Walvis Bay, who has toured Namibia and even travelled through India on her Royal Enfield.

"These women are fearless," Groenewald said. "Elaine has done solo rides across continents. They inspire us and show that biking is for everyone."

For Namibia, Sunday's ride was more than just a fun trip. It was the country's first step into a global event that brings bikers together every year.

Groenewald said she hopes the event will grow bigger next year.

"This was just the beginning," she said.

"We are now part of the worldwide Royal Enfield family, and I believe Namibia can build a stronger biking community. We're already looking forward to the next ride."
