

REPUBLIC OF NAMIBIA

ENVIRONMENTAL QUESTIONNAIRE FOR MINING CLAIMS IN NAMIBIA

BEING APPENDIX A TO THE ENVIRONMENTAL CONTRACT

1. BACKGROUND INFORMATION

- 1.1 Companies/Natural persons applying for **MINING CLAIMS** must complete this questionnaire. (Please fill in ALL questions).
- 1.2 The answers provided in this questionnaire shall be regarded as commitments which will become part of the **Environmental Contract** between the Holder and the Government of the Republic of Namibia, duly represented by the Ministry of Environment and Tourism (MET) and the Ministry of Mines and Energy (MME).
- 1.3 Once the Holder has completed this questionnaire MET and MME will either accept/reject/request further information regarding the environmental commitments made therein. MET and MME reserve the right to add further conditions.
- 1.4 Once agreed to by all parties concerned, the completed questionnaire shall form part of the **Environmental Contract**.
- 1.5 Please attach a map of the mining claim area and a copy of the application to register mining claims.

2. Holder details

2.1 Name of Holder	<i>Colina Ndalikokule Namhadi</i>
2.2 Name of Mining Claim Holder (if different from 2.1)	
2.3 Telephone, Fax, Cell Phone and/or E-Mail	Tel: Fax: Cell phone: <i>0813813770</i>
2.4 Postal Address Residential/Registered Address	<i>P O Box 25920 Windhoek</i>
2.5 Reference Number	NEPL No: Expiry: <i>08 October 2025</i>
2.6 Registered Number(s)	<i>MC:75824</i>
2.7 Location (Farm, District, Region) of mining claim(s)	<i>Karas Region</i>
2.8 Group(s) of Mineral(s) to be mined	<i>Semi-Precious Stones</i>
Number of people	Where will they live?
<i>5</i>	<i>In portable tents</i>

3. Environmental commitments

3.1 Pollution and Waste

3.1.1 What will you do with **normal litter** (e.g. Kitchen spoils, cans, bottles, paper, etc.)?

All domestic waste, such as kitchen refuse, cans, bottles, and paper, will be collected in labelled waste bins. Non-biodegradable waste will be transported to the nearest approved landfill site, while biodegradable waste will be composted where feasible.

3.1.2 What **industrial waste** will be generated and what will you do with it (e.g. old machinery, vehicles, building rubble, batteries, paint, thinners, vehicle oil, etc.)?

Used oil, filters, batteries, tyres, and scrap metal will be safely stored in designated containers and disposed of through licensed recycling or waste management companies. Any old machinery or building rubble will be removed from the site upon completion of operations.

3.1.3 Describe what type of **toilet facilities** will be provided.

Portable chemical toilets will be provided and maintained on a regular basis. Waste will be safely removed by authorised service providers to avoid groundwater contamination.

3.2 Vehicle, earthmoving equipment, drilling and blasting

3.2.1 List the type and quantity of vehicles, earthmoving equipment, drilling equipment, and other machinery likely to be used on your mining claim (e.g. 2 x bakkies; 1 x bulldozer, etc.)

Vehicles:

2 × 4x4 bakkies

Earthmoving equipment:

1 × front-end loader

1 x tipper truck

Drilling equipment:

1 × small compressor and jackhammer

3.2.2 Describe the environmental damage that is likely to result from the use of vehicles and machinery within the mining claim area (e.g. on the landscape in general, soil, vegetation, noise, dust, etc.).

Potential impacts include soil compaction, dust, vegetation disturbance, and noise. These will be minimised through controlled vehicle movement and routine maintenance.

3.2.3 How will you control the movement of **vehicles and machinery** in order to minimise environmental damage?

Vehicle movement will be limited to marked tracks and designated working areas to prevent unnecessary soil erosion and vegetation loss.

3.2.4 Which routes will be used by vehicles to get to your mining claim and state whether you intend making new roads or tracks (both to your mining claim and within your mining claim)?

Existing roads and tracks will be used. No new permanent roads will be constructed unless absolutely necessary and approved by the relevant authority.

3.2.5 Will you do any blasting on your mining claim?

Yes: _____ No: **X** _____ Unsure: _____

3.2.6 If “yes” above, explain how you intend minimising environmental impacts, including the safety
No large-scale blasting will be undertaken. If small-scale blasting becomes necessary, it will

be carried out under the supervision of a licensed blaster with prior approval and adherence to safety and environmental standards. of humans, livestock and wildlife?

3.3 Water

3.3.1 How much water do you intend using for various activities (e.g. human use, washing of equipment, washing sand/stones, dust control, gardens, etc.) and state how you intend saving water within each category of use.

Activity or category of use	Quantity of water needed per month (litres)	Water saving methods
Human Use	2000	Rainwater harvesting and recycle for dust control
Washing Equipment	500	Reuse water and restrict use for essential activities
Dust control	2000	Use high-pressure misting instead of heavy spraying

3.3.2 Where will you get your water (e.g. river, own borehole, Water Affairs connection, etc.)?

Water will be sourced from the water affairs connections and be transported to the site.

3.3.3 Explain how you will minimise or completely avoid polluting any water source, including underground water.

No wastewater or chemicals will be discharged into natural water bodies. Oil traps and containment measures will be in place to prevent groundwater pollution.

3.4 Relations with neighbouring communities and/or the general public

3.4.1 Are there any people living in or near your mining claim?

Yes: ☒ No: _____ Unsure: _____

3.4.2 If “yes”, explain where these people live and describe their economic activities.

Yes, some communities reside near the mining area, mainly engaged in subsistence farming.

3.4.3 If “yes” in 3.4.1, explain what you will do to maintain a good relationship with such people.

The mining operation will maintain open communication, provide local employment where possible, and ensure minimal disruption to community activities.

3.4.4 Will the activities on your mining claim restrict the movement of other people in the area (e.g. the general public, tourists, farmers, local people, etc.)?

Yes: _____ No: ☒ _____

3.4.5 If "yes" for 3.4.4, please explain why their movements or access will be restricted.

3.5 Protection of plants and wildlife

3.5.1 How will you ensure that your activities will not cause unnecessary damage to **plants and wildlife** in or near your mining claim) e.g. hunting, plant collecting, fishing, etc.)?

Vegetation clearing will be minimal, limited to the operational area. Hunting, plant collection and any disturbance to wildlife are strictly prohibited. Rehabilitation will include replanting indigenous species where necessary.

3.6 Historical, archaeological and cultural heritage (e.g. rock art, graves, monuments, fossils, sacred sites, historical buildings, etc.)

3.6.1 Are there any historical, archaeological or culturally important sites within your mining claim area?

Yes: _____ No: ☒ Unsure: _____

3.6.2 If "yes", please describe briefly.

3.6.3 If such sites are known, how will you avoid damaging them?

3.6.4 If such sites are discovered after you have started working your mining claim, would you accept new conditions to this contract so that they can be properly protected?

Yes: ☒ No: _____ Unsure: _____
If any heritage or archaeological sites (e.g. graves, rock art, or fossils) are identified, all activities will immediately cease in that area and the National Heritage Council will be notified for proper assessment & protection.

3.7 Rehabilitation
3.7.1 When will you rehabilitate the environmental damage done during prospecting? (Tick the appropriate box)

I have no intention of rehabilitating any damage

On a continuous basis (i.e. simultaneous with prospecting) ☒

Only after all prospecting has finally been completed

I don't know _____

3.7.2 Describe the programme of mining from the start and the methods to rehabilitate damage.

Topsoil will be stockpiled for site restoration and mined-out areas will be backfilled and shaped to blend with the natural landscape.

4. Existing Damage

Describe what environmental damage exists in your mining claim area now, in other words, damage caused by someone else before you began working on the mining claim. Where possible, provide evidence such as photos, statements, etc.

There is no existing environmental damage within the mining claim area. The site is intact and undisturbed. The land shows no signs of previous mining or human activity and the natural environment remains in its original state.

I hereby declare that the information provided in this questionnaire, is to the best of my knowledge, accurate and correct, and that I'm prepared to keep to the commitments stated therein.

NON EXCLUSIVE PROSPECTING LICENCE

(Issue in terms of Section 21 of the Minerals (Prospecting and Mining Act, 1992 (Act 33 of 1992))

Non Exclusive Prospecting Licence Nr: **10357**

Office Reference No. **14/2/1/1/10357**

1. LICENCE is hereby granted to: **Colina Ndalikokule Namhadi**

Nationality: **Namibia**

Identification No: **93111600227**

Date of Birth: **16 November 1993**

Physical Address: **Erf 2794, Madrid Street, Otjomuise, Windhoek, Namibia**

Postal Address: **P O Box 25920, Windhoek, Namibia**

Tel No: **264813813770, 264813813770**

Represented in the case of natural person who is, or becomes, resident outside Namibia, by approved accredited agent:

- (i) to carry on, subject to the provisions of Sections 16(2)(a),(b), and Section 16(3), prospecting operations for any mineral or group of minerals (excluding source material in terms of Section 16(2)(f)), on any land other than land stipulated in terms of Section 16(2) (c), (d) and (c) and Section 122(1), and
- (ii) subject to the provisions of Section 16(1)(b) and (c), and (5) to remove from such land any mineral or group of minerals from the place where it was found on incidentally won in the course of such prospecting operations,
- (iii) subject further to the following terms and conditions:
- (iv) The holder of this licence is entitled to peg claims in accordance with and subject to the provision of Section 25 and Part VI of the Minerals (Prospecting and Mining) Act, 1992.

2. This licence is valid for a period of **1 Year**, from **09 October 2024** to **08 October 2025** and shall not be transferred or renewed, nor shall any interest in the licence be granted, ceded or assigned to any other person whether in whole or in part.
