PUBLIC NOTICE

HARMONIC

Take notice that HARMONIC TOWN PLANNING CONSULTANTS CC, Town and Regional Planners, on behalf of the owner of the respective Erf, intends to apply to the Swakopmund Municipality and the Urban and Regional Planning Board for the:

- Rezoning of Erf No. 2279 Turmain Street, Swakopmund (Extension B), from "Single Residential" with a density of 1:900 to "General Residential 2" with a density of 1:250; and
- Consent to commence with the proposed development while the rezoning is in progress.

Erf 2279 Turmain Street (Extension B) measures 11000m² in extent and is zoned "Single Residential" with a density of 1:900 as per the Swakopmund Zoning Scheme. It is located in Turmain Street, Vinstra (Extension B). The owners intend to rezone Erf 2279 to accommodate more rental units to provide rental accommodation that is in line with the Swakopmund Municipality's regulations. The proposed rezoning will allow the owner to accommodate additional units on the Erf thus, fulfilling the use of the Erf to its full potential and catering to the housing demand in Swakopmund.

Sufficient parking for the development will be provided in accordance with the requirements of the Swakopmund Zoning Scheme. The locality plan of the Erf lies for inspection on the town planning notice board at the Swakopmund Municipality and at Harmonic Town Planning Offices, 703 Prastler Street, Windhoek West.

Any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the Swakopmund Municipality and with the Applicant, in writing within 14 days of the last publication of this notice (final date for objections is **Thursday, 09 October 2025.**)

VACANCY

ELIKO DIAMONDS PTY LTD

We're Hiring

We invite candidates who are passionate and experienced for the required positions:

- General Manager
- Triple XXX Diamond polisher in Hearts and Arrows and specialized shapes
- Specialized Evaluator for high value and big stones
- Quazer Laser machine operator
- Galaxy scanner operator
- Specialized fancy shapes operator
- Serine Planner operator
- 4p Cutting machine operator
- Auto Dill Machine operator

Requirement to apply for the job:

- Grade 12 and above
- Certified hard copy of ID
- Fluent in English
- Police Clearance Certificate (not older than 6 months or receipt)
- Experience letter / Training Certificate

A. Disadvantaged citizens are encouraged to apply

How to apply: email your CV and supporting documents to - aafmh.za@parishgroup.com

Due date for application: 09 September 2025 at 10:00 (CAT)

Need to advertise? Our expert sales staff is here to help!

PUBLIC NOTICE

Please take note that Kamau Town Planning and Development Specialists and Environmental Consultants has been appointed by the owner of the Remainder of Portion B of the Luderitz Town and Townlands No. 11 to the Luderitz Town Council, the Urban and Regional Planning Board, and to the Environmental Commissioner for the:

- Subdivision of the Remainder of Portion B of the Luderitz Town and Townlands No. 11 into Portion A, Portion B and Remainder of Portion B of the Luderitz Town and Townlands No. 11.
- Rezoning of the proposed Portion A from "Undetermined" to "Residential 2" with a density of 1:100.
- Rezoning of the proposed Portion B from "Undetermined" to "Street".
- Alteration of the Boundaries of Luderitz Proper to include Portion A and B.
- Request for the Waiver of the Settlement and Endowment Fees in Lieu of street creation on Portion B.
- Consent to begin with construction while the subject application is in progress.

In accordance with the Luderitz Zoning Scheme, Part 2, Section 105 of the Urban and Regional Planning Act, 2018 (Act No. 5 of 2018), the Environmental Management Act, 2007 (No. 7 of 2007), and the Environmental Impact Assessment Regulations (Government Notice No. 30 of 6 February 2015), Kamau 1102 hereby provides public notification of the above application. The owners of the proposed subdivided Portions A and B intend to rezone Portion A to "Residential 2" and Portion B to "Street". They also intend to alter the boundaries of Luderitz Proper to include the proposed subdivided Portions A and B, in addition, the owners wish to commence construction while this application is being processed.

The purpose of this application is to enable Rocky Bay Investment CC, who were allocated Portion A, to construct workers' accommodation on the proposed Portion A and to create a street on the proposed Portion B. The remainder of Portion B within Luderitz Town and Townlands No. 11 will remain unchanged.

Please further take note that -

- For more enquiries regarding the subdivision, rezoning, consent, waiver of settlement and endowment fees and alteration of boundaries, kindly visit the Luderitz Town Council's Department of Planning.
- Any person having objections to the proposed development or who wants to comment, may lodge such objections and comments in writing, together with the grounds, with the Chief Executive Officer of the Luderitz Town Council, and with the applicant within 14 days of the last publication of this notice, i.e. no later than 09 October 2025.

REGISTRATION OF INTERESTED AND AFFECTED PARTIES (I&AP) AND SUBMISSION OF COMMENTS:

Provided that the Luderitz Town Council provisionally grants consent for an Environmental Impact Assessment (EIA) to be conducted for the creation of a street on the proposed Portion B, all interested and affected Parties (I&APs) are hereby invited to register and submit their comments, concerns or questions in writing on or before 09 October 2025 in line with Namibia's Environmental Management Act, 2007 (No. 7 of 2007) and EIA regulations (Government Notice No. 30 of 6 February 2015).

Farmers Welcome Certified Seed Initiative, Call for Expansion

Patemoshela Lukoko

Farmers in northern Namibia have welcomed the establishment of a certified seed sector, saying it will reduce dependence on imports and ease the burden of high input costs.

Speaking to Eagle FM, Ohangwena farmer Asser Nghipewa said he was pleased that Namibia is moving towards producing its own seeds. He believes this will not only strengthen food security, but also give farmers confidence that their efforts are supported at a national level.

"We are very happy to be able to produce our own food using our own seeds. This shows Namibia is going forward, and one day we will achieve full food security," Nghipewa remarked.

He explained that farmers have long struggled with imported seeds, which are often expensive and sometimes unavailable.

"When seeds come from other countries, they become costly, or at times, they are not in the market, and we have to wait. With local seed production, we will now get seeds on time," he added.

Nghipewa highlighted crops such as bumper, sweet corn, tomatoes, and carrots, which many farmers currently buy their seeds of in Windhoek, as the northern regions lack outlets.

He noted that the Namibia Agronomic Board has often encouraged farmers to grow potatoes, but the absence of locally available potato seeds has made this difficult. He also welcomed UNAM's approach, under which the first buyers of certified seeds will be required to use it for further multiplication rather than immediate consumption.

"That is good thinking, because if we all buy for food consumption, then we go back to square one," he stated.

However, he pointed out challenges that still remain, such as the lack of fruit seeds like oranges and apples, and the absence of specialised sweet potato seeds.

He urged UNAM and the government to scale up seed production to cover more crops and ensure availability nationwide.

Nghipewa further called on educated Namibians with farming knowledge to contribute ideas and solutions for improving the country's agricultural systems.

"Not only should UNAM work on this. We also have people with knowledge who can help improve our farming practices," he said.

Water scarcity remains another concern. Nghipewa noted that Namibia's short rainy season limits year-round production, underscoring the need for irrigation systems to complement the seed initiative.

Despite the challenges, he encouraged farmers to remain committed. "Farming requires a long-term vision. Many give up after the first failure, but we must persist if we want to secure our future," he encouraged.

Vaino Namushinga, a farmer from Oshikoto Region, said local seed production will help communities cut costs while also boosting participation in agriculture.

"Purchasing seeds from distant sources is costly, as most inputs in Namibia are imported. Local seed production will not only reduce expenses, but also build national pride and strengthen the agricultural sector," Namushinga said.

He added that while crops such as tomatoes, spinach, and watermelons are largely grown using seeds from South Africa, there is need to prioritise varieties already produced locally.

He pointed to the example of UNAM's Ongongo campus, which produces rice seed, reducing dependence on imports from China and Japan.

Namushinga also welcomed UNAM's progress on potato seed research, noting the crop's high national demand.

The certified seed initiative is being spearheaded by UNAM in partnership with the Namibia Agronomic Board, with support from the government. It is expected to reduce imports and improve productivity in crops such as maize, pearl millet, wheat, and potatoes.

Plans for Regional Processing Centres Mooted

Hee-Dee Walenga

Experts and observers have indicated that localisation of the booming renewable energy is a crucial component to create value for Namibians.

This was highlighted in one of the discussions that took place at the second Global African Hydrogen Summit in Windhoek from 9 to 11 September 2025 during the panel discussion titled 'Localisation and Just Economy: Accelerating the Global Transition With African Energy Solutions.'

The panel consisted of the Mayor of the municipality of Walvis Bay, Trevino Forbes Legal Practitioner & Researcher at the Legal Assistance Center, Chloe Brandt, Research Associate at the Institute for Public Policy Research (IPPR), Martha Nangolo, and Senior Economic Development Manager for Hyphen Hydrogen Energy, Johannes Shipepe.

Shipepe stated that Hyphen will ensure that local communities are active participants in the project by developing a socioeconomic development framework, which is part of their feasibility implementation agreement with the Namibian government.

"Our framework speaks to how we will engage and bring along all key social stakeholders, business, and how we will support the towns of Luderitz and Aus," Shipepe stated.

He also revealed that the company has developed a stakeholder engagement strategy that identifies environmental, technical, and social stakeholders to develop a strategy on how and when they will bring them along.

Hyphen has also developed a mechanism for the public and general stakeholders to file grievances for Hyphen to address.

The Walvis Bay Mayor expressed that the local authorities are not treated with the necessary respect, considering that they are a key component of implementing renewable energy initiatives.

"We are the closest form of government to the people. We know the everyday struggles that people face. Namibia and Africa as a whole, we are policy-rich but poor when it comes to implementation," Forbes expressed.

Forbes noted that more communication and consultation is needed between corporations, local authorities, and the public on what the benefits of the green hydrogen sector are for the general public.

"Localisations means making it about the locals. The real stakeholders are the communities of Namibia," stated Chloe Brandt of Legal Assistance Center.

She noted that discussions such as the referenced panel discussion rarely include members of the community who are on the ground.

"Prior informed consent needs to be mandated. It needs to be a legislative requirement for anyone who wants to work with resources in Namibia. We currently do not have that," Brandt lamented.

She reiterated that, currently, the 'public consultations' that take

place totally exclude the public/locals because there is no legal framework to hold corporations responsible for said exclusion.

Nangolo of the Public Research called on the Green Hydrogen sector to implement the Extractive Industry Transparency Initiatives (EITI) that have been adopted in the Oil & Gas Industry to increase the levels of trust from the public.

"It will be a game changer," Nangolo stated.
