The Office of the General Manager

Cape Cross Lodge

P. O. Box 259, Henties Bay, Namibia

Dear Sir or Madam

Re: Notice of the Environmental Impact Assessment (EIA) Study for the proposed salt production within ten (10) Mining Claims (MCs) No. MC75982, 75983, 75984, 75985, 75986, 75987, 75988, 75989, 75990 & 75991 (MC75982-75991) located south of Cape Cross in the Erongo Region, Namibia – Application for Environmental Clearance Certificate (ECC) to the Environmental Commissioner, ECC Application No. APP-006781

Serja Hydrogeo-Environmental Consultants (Serja HGE Consultants) have been appointed by Telfs Investments (Pty) Ltd (*the Proponent*) to conduct an Environmental Impact Assessment (EIA) Study for the proposed salt production within ten (10) mining claims (MC75982-75991) located south of Cape Cross in the Arandis Constituency, Erongo Region - **please refer to the attached Background Information Document (BID).**

Please note that mining-related activities are listed in the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act (EMA) No. 7 of 2007 as an activity that cannot be implemented without an Environmental Clearance Certificate (ECC) issued by the Environmental Commissioner upon evaluation and approval of an Environmental Impact (EIA) Study. Should the ECC be issued by the Environmental Commissioner, the Proponent will then submit the ECC to the Ministry of Industries, Mines and Energy (MIME) for the finalisation of the mining claims' applications (for consideration of the approval of the mining claims rights/certificate). Once all the paperwork is in place (the ECC and mining claims certificate/rights), the Proponent will plan for and commence with the proposed salt production activities onsite (within the 10 mining claims).

RECEIVED : 08/12/25
N/A

To fulfil the requirements of the EMA and its EIA Regulations, Telfs Investments appointed Serja HGE Consultants to conduct the required EIA Study and apply for the ECC on their behalf. The Study entails Public & Stakeholders' Consultation – sharing information and recording of issues/concerns and comments (potential impacts) to be incorporated, assessed in the EIA Scoping Report, with management and mitigation measures provided in the Environmental Management Plan (EMP). The two documents (EIA Scoping Report and EMP) with associated appendices will be submitted to the Office of the Environmental Commissioner for consideration of the ECC for the mining claims.

Furthermore, **as required by the Department of Environmental Affairs & Forestry (DEAF), a written notice to your office is required, as the project will be operated near the Cape Cross Lodge.** Consequently, Serja HGE Consultants hereby submits the BID and the EIA Scoping Report, and the Environmental Management Plan (EMP) will be forwarded to your office for the consent letter towards the mining claims and planned activities.

Should you have any comments, issues, or concerns that you would like us to consider in the EIA Scoping Report and EMP, please send these to us **in writing before or on Friday, 16 January 2026.**

Yours sincerely,

Ms. Fredrika Shagama: Principal Environmental Assessment Practitioner & Hydrogeologist

Serja Hydrogeo-Environmental Consultants CC

PERMIT TO ENTER CAPE CROSS NATURE RESERVE

Details of Permit Holder:

Vehicle Registration:	A N36740 W	☒ Day Visitor	☐ Overnight
Name	STEFANUS JOHANNES	Total Passengers	Adults 3
Address	WINDHOEK		U/16

WELCOME TO CAPE CROSS NATURE RESERVE

Entry into Cape Cross Nature Reserve is subject to the provisions of the Nature Conservation Ordinance (Ordinance 4 of 1975) as amended and Regulations Relating to Nature Conservation (GN 240 of 1976) as amended:

PERMIT CONDITIONS:

- Please drive only on the demarcated roads and avoid making off-road tracks.
- If you are overnighing in the Nature Reserve, please do use the designated camp sites and fireplaces.
- This Nature Reserve is a pet free zone, please do not bring your pet into the reserve.
- Please take your refuse along with you for later disposal.
- Dead wood in the Nature Reserve is integral to the coastal ecosystem, please do not use it to make fires.
- Please respect the wildlife, do not kill, injure, catch, handle or in any way disturb it in the Nature Reserve.
- Plants and lichens are critical to the ecosystem, please do not pick, collect or damage them in any way.
- Please do not collect or take any "Souvenirs" from the natural environment in the Nature Reserve.
- Please do not vandalize, damage or deface with graffiti any object in the Nature Reserve.
- Please be considerate towards other visitors and the wildlife and keep noise to a minimum.
- Drones are not permitted to be flown anywhere in the Nature Reserve.
- Please comply with instructions issued by a Ministry of Environment, Forestry and Tourism official.
- Keep a copy of this permit and your receipt available in your vehicle for inspection by an officer on request.

WARNING

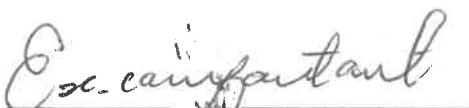

Seals are dangerous animals that are capable of inflicting a serious bite; to avoid being injured:

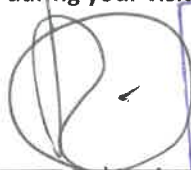

DO

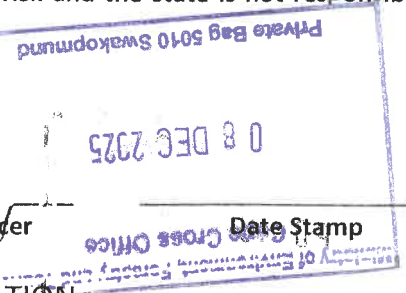

- Always get out of a seal's way if it comes towards you.
- Always keep a minimum distance of 2 meters between yourself and any seals.
- Avoid walking amongst the seals where they are resting.
- Refrain from touching, stroking, cuddling, feeding or disturbing the seals.
- Refrain from attempting to drive, herd or corner seals.

DISCLAIMER

Your visit and entry into the Cape Cross Nature Reserve is at your own risk and the state is not responsible or liable for any injury, damage or loss that you may incur during your visit.

Attention: ^{Dr} Mupenzi Ntelamo

Dear Sir

Re: Notice of the Environmental Impact Assessment (EIA) Study for the proposed salt production within ten (10) Mining Claims (MCs) No. MC75982, 75983, 75984, 75985, 75986, 75987, 75988, 75989, 75990 & 75991 (MC75982-75991) located south of Cape Cross in the Erongo Region, Namibia – Application for Environmental Clearance Certificate (ECC) to the Environmental Commissioner, ECC Application No. APP-006781

Serja Hydrogeo-Environmental Consultants (Serja HGE Consultants) have been appointed by Telfs Investments (Pty) Ltd (*the Proponent*) to conduct an Environmental Impact Assessment (EIA) Study for the proposed salt production within ten (10) mining claims (MC75982-75991) located south of Cape Cross in the Arandis Constituency, Erongo Region - **please refer to the attached Background Information Document (BID).**

Please note that mining-related activities are listed in the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act (EMA) No. 7 of 2007 as an activity that cannot be implemented without an Environmental Clearance Certificate (ECC) issued by the Environmental Commissioner upon evaluation and approval of an Environmental Impact (EIA) Study. Should the ECC be issued by the Environmental Commissioner, the Proponent will then submit the ECC to the Ministry of Industries, Mines and Energy (MIME) for the finalisation of the mining claims' applications (for consideration of the approval of the mining claims rights/certificate). Once all the paperwork is in place (the ECC and mining claims certificate/rights), the Proponent will plan for and commence with the proposed salt production activities onsite (within the 10 mining claims).

To fulfil the requirements of the EMA and its EIA Regulations, Telfs Investments appointed Serja HGE Consultants to conduct the required EIA Study and apply for the ECC on their behalf. The Study entails Public & Stakeholders' Consultation – sharing information and recording of issues/concerns and comments (potential impacts) to be incorporated, assessed in the EIA Scoping Report, with management and mitigation measures provided in the Environmental Management Plan (EMP). The two documents (EIA Scoping Report and EMP) with associated appendices will be submitted to the Office of the Environmental Commissioner for consideration of the ECC for the mining claims.

Should you or the Erongo Regional Council have any comments, issues, or concerns that you would like us to consider in the EIA Scoping Report and EMP, please send these to us in writing before or on Friday, 16 January 2026.

Yours sincerely,

As per the email communication below, this email serves to inform you that the [Draft EIA Scoping Report](#), [Environmental Management Plan \(EMP\)](#), and [combined minutes from the engagements held with some of the available stakeholders in December 2025](#) are ready for your review and comments. The compressed version of the EIA Scoping Report is attached hereto (the quality of images/maps may have been slightly affected by the compression to reduce the size from 6MB to 3MB). Therefore, due to the combined file size of the Report (of 6MB), which may be a problem for some mail inboxes, we have uploaded the document (file) on the [Dropbox link below](#), where you can download it for viewing.

Should you have any comments on the documents, please send them to us by **Monday, 23 March 2026, by 17:00 (5 pm)** so that we can include the comments in the Final EIA documents for submission to the Environmental Commissioner.

Subject: Notice of Environmental Impact Assessment (EIA) Study: The proposed salt production within ten (10) Mining Claims (MC) 75982-75991 located south of Cape Cross in the Erongo Region, Namibia - BID

Dear Stakeholder / Interested & Affected Party,

This email serves to inform you that Telfs Investments (Pty) Ltd (herein referred to as *the Proponent*) has on the 03rd of April 2025 applied to the Ministry of Mines & Energy (MME) to be granted the rights to mine industrial minerals (salt production) within ten (10) mining claims (MCs) 75982-75991 located about 2km south of Cape Cross Settlement in the Arandis Constituency, Erongo Region – [please refer to the attached Background Information Document \(BID\) for site maps](#). The ten MCs cover a combined area of 123.0962 hectares (ha), which constitutes 10.0233ha, 13.5702ha, 10.926ha, 14.7486ha, 14.4709ha, 17.3727ha, 2.0384ha, 7.4275ha, 24.2953ha, and 8.2233ha, for each mining claim, respectively.

It should however be noted that mining related activities are listed in the 2012 Environmental Impact Assessment (EIA) Regulations of the National Environmental Management Act (EMA) No. 7 of 2007, whereby the proposed project is one of the activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) from the Environmental Commissioner upon evaluation and approval of an Environmental Impact (EIA) Study. An ECC Application is being launched with the Ministry of Environment, Forestry & Tourism (MEFT). Should the ECC be issued by the Environmental Commissioner, the Proponent will then submit the ECC to the MME to finalize the mining claims' applications.

To fulfil the requirements of the EMA and its EIA Regulations, the Proponent appointed Serja Hydrogeo-Environmental Consultants to conduct the required EIA Study and apply for the ECC on their behalf. The Study entails Public & Stakeholders' engagement – sharing information and recording of issues/concerns and comments (potential impacts) to be incorporated, assessed in the EIA Report, with management and mitigation measures to be provided in the Environmental Management Plan (EMP). The two documents (EIA Report and EMP) with associated appendices will be submitted to the Office of the Environmental Commissioner for consideration of the ECC, which will be submitted to the Ministry of Mines & Energy for consideration of the mining claims rights/certificate approval.

Should you have any comments or issues that you would like us to include in the EIA Report and Environmental Management Plan (EMP), please submit them to us [in writing before the closing of business on Friday, 16 January 2026](#).

Kind regards,

Ms. Fredrika Shagama (+264 81 407 5536 / +264 81 749 9223) & Mr. Stefanus Johannes (+264 81 400 0570)
