
Chinese premier says SCO can play greater role in promoting good global governance

The Shanghai Cooperation Organization (SCO)

The Shanghai Cooperation Organization (SCO) is equipped and capable of taking the joint implementation of the Global Governance Initiative (GGI) as an opportunity to play a greater role in bringing the world under good governance, Chinese Premier Li Qiang said on Tuesday.

Li made the remarks when addressing the 24th Meeting of the Council of Heads of Government of Member States of the SCO.

Leaders and representatives from SCO members, observers and dialogue partners, guests of the host country, as well as leaders of international organizations attended the meeting, which was chaired by Russian Prime Minister Mikhail Mishustin.

Chinese President Xi Jinping solemnly put forth the GGI at the SCO Tianjin Summit in September, offering Chinese wisdom and solutions to help the international community jointly address global transformation and urgent challenges, Li said.

He underscored the SCO's importance in building and reforming the global governance system.

Firstly, the SCO should leverage its unique strengths, Li said.

Noting that the Shanghai Spirit is highly aligned with the core concepts of the GGI, Li said that the SCO has extensive practical experience and solid institutional guarantees, and should make full use of these advantages to make greater contributions to global governance and help build a community with a shared future for humanity.

Secondly, the SCO should focus on the key areas of development and security, he said.

He urged SCO countries to promote development and security through cooperation, enhance the alignment of development strategies, promote high-quality Belt and Road cooperation, ensure the stability and smooth flow of global industrial and supply chains, and jointly build an open and inclusive world economy.

He said China stands ready to work closely with all SCO members to establish the SCO Development Bank as soon as possible and proposes the establishment of a China-SCO cooperation center for metabolic diseases.

Li also called for efforts to strengthen security cooperation mechanisms, give full play to the important role of the four security centers, and work with the international community to jointly uphold multilateralism and promote universal security and lasting peace.

Thirdly, the SCO should stimulate strong vitality for innovation and transformation, he said. He urged joints efforts to strengthen cooperation in science and technology as well as industrial innovation, and promote cooperation on traditional energy and renewable energy.

Li said China welcomes the active participation of all parties in the SCO Digital Economy Forum and the China-SCO Artificial Intelligence Cooperation Forum, adding that China is willing to jointly build and make good use of the China-SCO digital economy cooperation platform and the sci-tech innovation cooperation center, and steadily increase the installed capacity of photovoltaic and wind power each by 10 million kilowatts in the next five years.

Li pointed out that leaders at the SCO Tianjin Summit jointly approved the development strategy for the SCO in the 2026-2035 period.

He said China is willing to work with all member countries to pay more attention to strategic coordination, effectively promote the implementation of cooperation, optimize and improve the operation mechanism, further enhance cohesion, capacity for action, and influence, and continuously make the SCO better and stronger.

Other parties attending the meeting noted that the SCO is playing an increasingly pivotal role in promoting regional integration and facilitating the establishment of a just and equitable multipolar world.

They called on all parties to join hands to implement the outcomes of the SCO Tianjin Summit, optimize the organization's mechanism, align with the Belt and Road Initiative, and implement the SCO's development strategy for the 2026-2035 period.

They also urged various sides to bolster cooperation in areas such as connectivity, economy and trade, security, as well as people-to-people exchanges, implement the GGI, and safeguard multilateralism and the central role of the United Nations.

Following the meeting, Li and other leaders signed the joint communique and cooperation documents concerning economy and trade, railways, social development and security, and approved relevant resolutions on the construction of the SCO.

PUBLIC NOTICE

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA) AND PUBLIC PARTICIPATION PROCESS DEVELOPMENT OF THE KAVANGO LINK PIPELINE TO SECURE WATER SUPPLY TO THE CENTRAL AREA OF NAMIBIA (CAN)

RFM Consulting cc, acting on behalf of **Namibia Water Corporation Ltd (NamWater)**, hereby informs **all Interested and Affected Parties (I&APs)** that the National Public Consultation meeting initially scheduled for Friday, 14 November 2025 has been rescheduled to Monday, 1 December 2025. The deadline for written comments has accordingly been extended to Friday, 5 December 2025.

PROJECT BACKGROUND
The Government of Namibia has resumed implementation of the Kavango–Grootfontein Link Water Supply Project, a strategic intervention aimed at strengthening long-term water security for the Central Area of Namibia (CAN). The project entails abstracting 35–60 million m³/year from the Kavango River at Rundu—representing a very small fraction of river flows—and conveying the water through a 280 km pipeline to Grootfontein, where it connects to the Eastern National Water Carrier supplying Windhoek and surrounding areas.

PURPOSE OF THE CONSULTATIONS
As part of the ESIA process, public consultations are being held to share project information, identify potential environmental and social impacts, and obtain inputs from stakeholders before finalisation of the assessment. The national consultation meeting provides the public an opportunity to engage directly with the project team.

UPDATED MEETING DETAILS
Location: NamWater Knowledge Centre, Windhoek
Date: Monday, 1 December 2025
Time: 18h00

REGISTRATION & DOCUMENTS
To register your attendance or request ESIA documents, please submit your details to:

Closing Date:	**Interested and Affected Parties (IAPs) are hereby invited to register for the EIA and to submit their comments and/or concerns with respect to the envisaged development to Ekwao Consulting during the consultation period: 7 November to 28 November 2025** **A Background Information Document (BID) is available upon inquiry**

VACANCY

Century Medical Laboratories CML
"Serving Our Clients Thru Quality, Convenience & Speed"

Century Medical Laboratories is an equal opportunity employer and invites proactive, professional, caring, ethical person to apply for the following position:

Position: Medical Laboratory Scientist
Requirements:

- Bachelor of Medical Laboratory Sciences Degree
- Minimum of 3 years' experience in the laboratory environment.
- Valid license to practice the profession, must be registered with HPCNA.
- Must be competent in Blood Transfusion, Haematology, Chemistry, Microbiology and Serology
- Experience in molecular techniques will be an added advantage.
- Clear understanding of Laboratory Quality management systems as per ISO 15189:2022 requirements
- Namibian citizen or eligible to work within Namibia.

Should you meet the above-mentioned requirements, kindly forward your CV and all certified supporting documents to: **admin@cmlmedlab.com**

NB! Documents should be in PDF format.
Due date: **25 November 2025**

VACANCY

Atenu Developments CC

Position: Design and Projects of Head
Experience requirements: 10 years of management in the construction industry, 7 years of experience in construction in rural areas, Project Management Certification, Budget control and previous leadership in materials procurement. Use of Autocad, Revit, Project MS, Office and Adobe Suite. Fluency in English.

All candidates interested please send your CV to: samuel@operfin.com

Atenu Developments CC

Position: Procurement clerk
Experience requirements: 5 years of experience in the construction industry, in the area of procurement of materials, use of Autocad, Office suite. Fluency in English.

All candidates interested please send your CV to: samuel@operfin.com

NOTICE OF ENVIRONMENTAL ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

Junior Baiano Industrial Consultants cc hereby gives notice to all potentially Interested and Affected Parties (I&APs) that an application will be made to Environmental Commissioner in terms of the Environmental Management Act (No 7 of 2007) and the Environmental Impact Assessment Regulations (GN 30 of 6 February 2012) for the following activity:

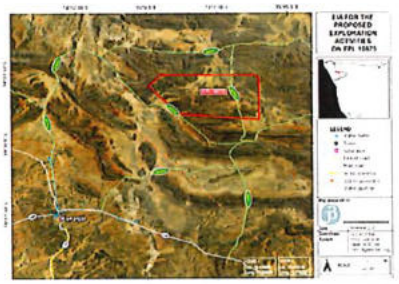
PROJECT DESCRIPTION:
Proposed mineral exploration and prospecting activities on EPL 10248

PROJECT LOCATION:
Kamanjab district, Kunene Region

PROPONENT: Cancun Gold (Pty) Ltd

IAPs are invited to register with the consultant and give their comments and concerns in writing. Please take note of the following:

PUBLIC MEETING:
Date: Friday,29 November 2025
Venue: Kamanjab Community Hall
Time: 11h00 am



To register or request for documents please submit your name, contact information and interest in the project, in writing to:

> For young graduates, unemployment should be seen as a temporary phase of growth.

not slow down for them.

Another challenge lies in how the education system prepares students. Most graduates are trained to be workers, not innovators. They leave university expecting to be hired, not to create. This mindset has created a generation of job seekers instead of job makers.

Governments and universities must help shift this thinking by supporting innovation, entrepreneurship and practical skills. Dr Zuma's reminder that "resources are no longer taken by force in Africa, we are taking them there" symbolises this new mindset — one of empowerment and ownership. The same applies to employment. The youth must take charge of their own future rather than waiting for someone else to hand it to them.

The truth about unemployment is that it is not always a matter of choice. Yet fairness demands honesty. Young people should not feel bad when joblessness is caused by weak systems or lack of opportunity. But they should feel challenged when they have the chance to improve yet do nothing.

Dr Nkosazana Dlamini Zuma's words were both a challenge and an invitation. The industrial revolution Africa needs will not send invitations in gold envelopes. It will demand the participation of every young person willing to rise, learn and build.

Nobody will invite the youth to this skills revolution. They must join it, willingly, boldly and without apology.

CRAN disconnects UCOM network

The Communications Regulatory Authority of Namibia (CRAN) has disconnected the network of UCOM Mobile Namibia after confiscating its radio equipment, saying the operator continued to use radio spectrum illegally despite repeated directives to cease operations.

CRAN said it cancelled all spectrum licences issued to UCOM , formerly MTN Business Solutions Namibia,on 16 February and 8 December 2023 due to unpaid licence fees and inefficient use of the allocated spectrum, which the regulator described as "hoarding" and a breach of licence conditions.

To limit disruption for UCOM's approximately 1,000 customers, CRAN granted the company six months until June 2024 to migrate its users and orderly wind up operations. The regulator said all services were expected to terminate after this period.

However, CRAN said spectrum audits conducted in July, September and October 2025 found that UCOM was still providing services in contravention of section 101(1) of the Communications Act of 2009.

The regulator said it had issued an instruction on 3 October 2025 ordering UCOM to immediately cease using any radio frequency spectrum and to submit written confirmation within 24 hours. According to

CRAN, the company failed to comply.

CRAN stated that UCOM's continued illegal transmission is now interfering with the networks of licensed operators and affecting service quality for consumers.

The regulator said radio equipment was confiscated during an operation conducted with the assistance of the Namibian Police, in line with section 102 of the Communications Act. CRAN said this action effectively shuts down UCOM's network and prohibits further operations.

"This decision was not taken lightly but is necessary to protect the proper use of radio spectrum and to ensure better service for customers," said Mufaro Nesongano, Executive for Communication and Consumer Relations at CRAN.

He said UCOM had been given sufficient time since December 2023 to address its compliance issues but failed to do so.

Govt launches seal sub-sector committee for sustainable management

The Ministry of Agriculture, Fisheries, Water and Land Reform (MAFWLR) has launched the Seals Sub-Sector Technical Committee (SSTC), a new body tasked with advancing the sustainable and ethical management of Namibia's seal

Strong demand pushes Swakopmund building approvals to surge 119%

Swakopmund's property market has recorded higher building activity despite a decline in the overall value of approved projects, with approvals totalling N$734 million year to date compared to N$2.6 billion in 2024.

Analysts say the trend reflects sustained investor confidence in the town.

According to Almandro Jansen, Economist at Simonis Storm, the coastal town has recorded a significant increase in building plan approvals, signalling positive investor sentiment.

Jansen said Swakopmund processed an average of 78 building approvals per month between January and October 2025,

totalling 783 to date, compared to 524 over the same period in 2024.

In October alone, approvals rose by 80%, increasing from 85 to 153 plans, representing a year-on-year rise of 119% from 70 approvals in October 2024.

"The 2025 trend reflects a more balanced and sustainable project pipeline, characterised by steady residential construction, incremental commercial developments, and early preparatory activity in anticipation of longer-term opportunities linked to the Walvis Bay–Swakopmund corridor and southern coastal developments," said Jansen.

In the same month, 85 projects were completed, valued at N$83 million. Residential construction led activity, including 36 houses, 16 extensions, 36 flats and one institutional build.

Jansen said the performance aligns with broader coastal housing trends, with the latest FNB House Price Index showing a 1.2% increase in average home prices over the last year. "Swakopmund continues to benefit from strong foreign demand. Sustained interest from international buyers, combined with growing local demand for rental properties, has underpinned a 41.5% year-on-year increase in transaction volumes across small and medium market segments," he said.

Jansen added that ongoing tourism demand, residential relocations and positioning for future large-scale investments along the coast are supporting confidence in the sector. He said similar trends are expected to extend to Lüderitz as green hydrogen and related infrastructure projects advance.

"Swakopmund is emerging as a secondary growth pole along Namibia's coastline, with opportunities expanding in residential, logistics, and hospitality developments. Spillover from anticipated port-related and green-energy initiatives will further support this trajectory," Jansen said.

He noted that Lüderitz, although not yet reflected strongly in current building statistics, is becoming a strategically important construction hub.

"What the numbers don't fully capture yet is the scale of the project pipeline now converging on the south — a combination of NamPower's grid expansion, Namport's harbour upgrades, and government's green hydrogen and town-readiness agenda," he said.

Jansen concluded that together, these developments indicate a structural shift in future construction trends, moving away from a purely real-estate-driven cycle towards a longer-term, infrastructure-led investment phase.

Why preserving your retirement money matters — And what to do when you change jobs

By Selby Sibeya

If there is one financial decision that quietly makes or breaks a retirement journey, it is what you do with your pension when you leave a job.

Cashing out feels tempting, while preserving the money feels boring. I mean, you are alive now, why not enjoy your money right? Well, as tempting as that thought is, you need to consider various factors, like living longer, before you chop your money.

Life expectancy in Namibia has risen to roughly 67 years. That means many workers who retire around 60 years, will need an income for a decade or more and even longer for those who retire earlier or enjoy good health.

The longer you live, the more damaging it is to keep taking from your retirement package. The Bank of Namibia's

Inflation Forecast report expects consumer inflation to hover around 3.6% for 2025 and 4% for 2026. If your savings leave the retirement system and sit in low-yield accounts, inflation will erode their real value.

> **Keeping funds invested inside the retirement system is one of the simplest ways to keep your money growing, so you can smile at your Retirement date (i.e. 60 years).**

It is even worse when you spend your savings on consumption, but it is better if you spend it on your retirement home.

Keeping funds invested inside the retirement system is one of the simplest ways to keep your money growing, so you can smile at your Retirement date (i.e. 60 years). Namfisa in its consumer education programme also advises that one needs
