Dear Esteemed stakeholder,

This email serves to inform you that Excel Dynamic Solutions (Pty) Ltd (the consultant) has been appointed by Tjikunda Katjina Kulunga (the proponent) to act on their behalf in obtaining an Environmental Clearance Certificate (ECC) for the proposed mineral exploration activities on Mining Claim (MC) No. 73444 Located northwest of Okanguati, Kunene Region.

Mineral prospecting and exploration are listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. The Proponent, therefore, appointed Excel Dynamic Solutions (Pty) Ltd, an independent Environmental Consultants firm to conduct the required Environmental Scoping Assessment (ESA) process and apply for the ECC.

Furthermore, Sections 21 to 24 of the EIA Regulations require that Public Consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested & Affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication.

Please find the attached **Background Information Document (BID)** for the proposed project. Once the ESA process is completed, a draft ESA Report will be compiled and together with its associated documents/appendices will be shared with you for review and comments before we submit these to the Department of Environmental Affairs (DEA) of the Ministry of Environment and Tourism (MET) for evaluation and consideration of the ECC.

Should you have any comments or concerns that you would like us to include in the ESA Report and its associated documents about the proposed project, please do not hesitate to send them to us.

Regards,
