Don has over 20 year's extensive experience in the Environmental and Social Management field, within the construction industry. He worked for different environmental programs and projects where he has been a senior staff member and lead consultant, leading Environmental & Socio-economic Impact Assessment (ESIA), Compliance Auditing and Construction Supervision, Project Management for Peri-Urban and Community Based Natural Resources Management (CBNRM), and Integrated Water Resources Management (IWRM). Over the years, he has also been conducting monitoring & evaluations, environmental auditing and compliance monitoring of various development and engineering projects.

All our work has met National and International Standards for Environmental Protection and Sustainable Development Goals.

Don has experience in ESIA's for Townships establishment, roads construction, waste water treatment plants, construction of PV Solar Plants, water reservoir and pipelines development, etc.

Apart from conducting ESIA's, Don have been involved in construction supervision and in environmental and social compliance auditing/monitoring of construction projects of various nature.

Don has successfully completed over 30 ESIA's and successfully secured Environmental Clearance Certificates for all the projects.
