Work Experience

Ekwao Consulting

June 2016 to date

4350 Lommel Street, Ongwediva

Co-owner of the consulting firm which provides integrated technical services to the mineral sector with a special focus on the small scale-miners. The core services provided are registration of Mineral Rights (EPL, NEPL, Mining Claims, Mining Licences, Mineral Export Permits, Mineral Retention Licences, etc.), Feasibility Assessments, Due Diligence, Technical Audits, Environmental Impact Assessments (EIA), Environmental Management Plan (EMP) as well as Mining Operational Support.

Over 50% of our revenue is generated from conducting Environmental Impact Assessments (EIAs) and Audits hence currently pursuing a Master in Environmental Engineering with specialisation in Energy Systems (at NUST).

Project Manager

September 2015 to October 2017

Spanish Agency – International Cooperation & Development

(Two Year Contract Appointment)

Walvis Bay, Namibia

An NGO funded project

Appointed Project Manager coordinating and overseeing the implementation of a multimillion dollar expansion program which involved the construction of six new modern fish outlets in the northern region based towns of Eenhana, Outapi, Opuwo, Omuthiya, and Ongwediva. My key performance areas include managing various contractors and liaising with service providers. The expansion program was partially funded by the Spanish Development Cooperation.

Mine Manager

March 2013 – July 2015

Fourth Mining Diamond Company

(Mine placed on care & maintenance)

Rosh Pinah, Southern Namibia

A junior company mining alluvial diamonds along the banks of the Orange River south of Rosh Pinah

Joined the company as a Project Engineer initially overseeing a team of contractors building the mine infrastructures. Appointed Mine Manager when the mine entered the production phase. KEA

- day-to-day management of the diamond mining operation (stripping, screening, loading & hauling and processing) administrative functions
- short term planning, budgeting and implementation of work programmes hence ensuring full compliance with the Minerals Act and the newly enacted Diamond Act.

Technical Manager

February 2007 – December 2012

Weatherly Mining Namibia (Otjihase Mine)

(Accepted a better offer)

Windhoek, Namibia

A satellite underground mine owned by Weatherly Mining Namibia about 30 km northeast of Windhoek

Joined the company as a Mine Captain (a statutory appointment) initially assigned to the Tschudi Project located outside Tsumeb overseeing and managing two related, but separate operational activities an infill drilling campaign carried out by a contractor, and an in-house fast tracked development program to access the orebody

Curriculum Vitae of Joel Hafeni Shafashike

Appointed Technical Manager and seconded to the satellite mine at Otjihase northeast of Windhoek responsible for all technical aspects of the underground operation: short term planning and production scheduling, procurement of consumables (explosives, fuel, chemicals, etc.), ventilation, rock mechanics, supervision of contractors, etc.

Project Manager

Namibia Small Miners Assistance Centre

Windhoek, Namibia

February 2001 - December 2006

(5 Year Term Contract)

The Namibia Small Miners Assistance Centre was one of the projects funded by the European Union (EU) under its Sysmin Support Programmes to the Mining Sector of Namibia through a bilateral agreement between the Namibia Government and the EU.

Appointed Project Manager of the Namibia Small Miners Assistance (Centre) on a five year contract term to implement the Small Scale Mining Project funded by the EU. Key performance areas included:

- provision of technical assistance and guidance to small scale miners (SSM) to enable them to develop sustainable mining operations to create employment and to contribute to the main stream economy
- ensuring compliance of SSM mining activities with the Minerals (Mining & Prospecting) Act
- assessing and appraising business plans submitted by SSM for funding by the Minerals Development Fund, and as well as the ,
- co-ordination and implementation of all funded projects including on-going monitoring of performances against agreed benchmarks
- seeking and securing markets for the mineral commodities mined by SSM, i.e. semi-precious stones, tin and tantalite concentrates, industrial minerals such as salt, aggregates & clay.

Chameis Area - Mining Manager

NamDeb Diamonds Corporation

Oranjemund, Namibia

Sept 1986 - Dec 2000

(Resigned to pursue other interests)

Joined the company as a trainee mining supervisor and was offered a bursary to read mining engineering at the University of Witwatersrand (Johannesburg). Discontinued the degree program in the third year and went on to complete a National Higher Diploma (Mining Engineering) at the School of Mines of the Witwatersrand Technikon (now the University of Johannesburg) in Johannesburg.

Upon completion of both the studies and training program in RSA, I served NamDeb in several capacities progressing through the normal mining ranks of Mining Supervisor (all processes of overburden stripping, loading & hauling, bedrock cleaning, pumping and drilling & blasting) Mining Foreman (Planning), Mining Foreman (Production), Junior Mining Engineer, Mining Engineer up to the appointment of Chameise Area – Mining Manager.
