Subject: Confirmation of Representations, Objections, and Comments Received - Environmental Impact Assessment for the Subdivision of the Remainder of Portion B of the Lüderitz Town and Townlands No. 11 Into Portions A, B and Remainder, Rezoning of Portion B from 'Undetermined' to 'Street' (Street Creation), Lüderitz, Karas Region APP-007371

Dear Sir,

This letter serves to outline the representations, objections, and comments received in connection with the Environmental Impact Assessment (EIA) process for the proposed activities in Lüderitz, Karas Region, under APP-007371.

In accordance with the requirements of the Environmental Management Act, 2007 and its Regulations, the public participation process was duly undertaken. The communication with the Interested and Affected Parties (I&APs) about the proposed development was facilitated through the following means and in this order:

- A Background Information Document (BID) containing the descriptive information about the proposed activities was compiled and sent out to all identified and registered I&APs via email on and to adjacent landowners via registered mail on 28 August 2025;
- Notices were placed in the *Confidante* and *New Era* newspapers on the following dates:
 - *Confidante* – 29 August 2025 and 05 September 2025.
 - *New Era* – 29 August 2025 and 05 September 2025.briefly explaining the activity and its locality, equally inviting members of the public to register as I&APs and
- A notice was fixed at the project site as well as the notice board of the Lüderitz Town Council.

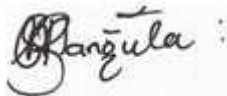

- After the initial notification, the I&APs were given two weeks to submit their comments on the project (until 09 October 2025). The comment period remained open until the final scoping report was submitted to MEFT.
- The draft Scoping Report was circulated from 10 October 2025 – 27 October 2025 so that the public can review and provide their comments. It should be noted that no comments have been received from the public on the draft report during the public participation process.

Through the process outlined above, sufficient opportunities for engagement were given to any potential I&APs to provide any comments. Our office hereby confirms that no written or oral representations, objections, or comments were received from I&APs, stakeholders, or authorities during the entire consultation period.

Accordingly, we confirm that there are no such submissions to attach or include with this application and its associated reports or plans.

Please do not hesitate to contact us should you require any further clarification.

Yours faithfully,

Thandiwe Mbangula
Environmental Assessment Practitioner
